

# Re-elect

- a proven leader
- a strong voice for labour
- committed union activist

## SFL PRESIDENT **LARRY HUBICH**

“ Unions are under attack like never before in this province. **More than ever we need someone who will stand up for the rights of working people.** I have the experience, the integrity and the commitment to keep fighting for a fair deal for everyone. ”

# 3 reasons to vote for Larry Hubich:

## 1. I AM A PROVEN LEADER

The best work comes from a strong team with accountable, democratic and reliable leadership. You, as SFL members, are my greatest resources and our collective successes over the past four terms are because of your support.

## 2. I CAN GO THE DISTANCE

Collectively we launched a court challenge against Bills 5 and 6 and won a ruling in our favour from the United Nations International Labour Organization. The Court of Queen's Bench has confirmed that our case against the government's anti-worker legislation is the "lead case." All Saskatchewan unions are being invited to participate as we continue with the case. You deserve a federation that will keep fighting for you and a leader who won't give up when things get tough.

## 3. I AM ACCESSIBLE

I am always willing to listen to ideas and concerns from within and outside the labour movement. I am in constant contact with the membership and I list my email and phone numbers on every communication because I want to know what you think. Feedback helps form and strengthen our policies and is a vital part of a democratic, healthy federation. I invite you all to contact me whenever you have something to say.

I thank you for your support in the past and I ask you for your vote at convention.

**Together,  
we are  
strong.**
